

Pabau: security audit report

Created on 01 June 2026 @ 17:04

Pabau wants to build trust by giving you insight in how it builds software in a secure manner. The report details how software development at Pabau is being monitored and safeguarded from the developer's computer all the way to the infrastructure used for delivery.

This security report has been generated by Aikido Security based on real-time monitoring of Pabau code and infrastructure.
